

# Stockmen's AID FOR ATLAS

## DISASTER RELIEF FUND

The North Dakota Stockmen's Association and the North Dakota Stockmen's Foundation are extending support to North and South Dakota livestock producers who were devastated by winter storm "Atlas" in early October. The non-profit organizations have established the Stockmen's Aid for Atlas Disaster Relief Fund to provide relief to ranchers who suffered livestock losses.

Donations will be added to the \$10,000 seed money donated by the North Dakota Stockmen's Association and the Stockmen's Foundation. Later this year, through an application process, the donations will be distributed to ranchers in need.
